We are on a mission to exceed your expectations and form a long term, mutually beneficial relationship with you.

What is E-Diagnostic?

E-Diagnostic is integrated website and mobile Login to manage the medical laboratories and Radiology's system, as it fulfils all the needs of medical laboratories from all their professional aspects, as it allows the users of the system the results of medical tests and facilitates communication and cooperation between laboratory employees and extracts all the required reports from the laboratory and Radiology. E-Diagnostic testing is a structural testing method that involves using the source code of a program in order to find every possible executable path. It helps to determine all faults lying within a piece of code. This method is designed to execute all or selected path through a computer program. Any software program includes multiple entry and exit points. Testing each of these points is a challenging as well as time-consuming. In order to reduce the redundant tests and to achieve maximum test
